NOTES						
**At any one time the system may have 20 to 50 inmates on leave to custody for court, etc.						
PHC/DET --Pre Hearing Confinement and Detention cells. These cells are not general housing cells and are used for temporary placement of inmates who will need a space held in the general bed count.						
Mental Health (MH), Restricted Administrative Segregation, Administrative Segregation, Maximum Security, High Security Management Program, Vulnerable and Predatory Housing Blocks (Ad.Seg and Special Management Inmates (SMI)) designated areas are not utilized to full capacity on a daily basis due to the unique needs of these inmates.						
Feds = federal contract cells.						
System maximum capacity is not achievable due to transportation, ITU's, ad-seg, PHC and cannot force custody and classification levels.
